Deposit due within 7 days of confirmation.

About us...

In 1987 we founded Eastern Europe Travel/Russian Travel Centre and today, under the same Australian ownership, we are still the foremost specialist for this fascinating region. Our specialised team, some of whom originate from the region, travel extensively to provide you with the first-hand knowledge and expertise you would expect from a specialist operator. We have been organising River Cruising in Russia since its inception and have seen it emerge as one of the most popular ways of exploring Russia.

River Cruising in Russia

There is no easier way to explore Russia than through its ancient waterways on a relaxing river cruise. You pack and unpack once and have no need to worry about early morning starts. River Cruising in Russia is a step back in time, venturing into Russia's heartland. It offers the opportunity to travel beyond Moscow and St. Petersburg to experience life in the riverside towns and rural settlements.

For those of you who have already travelled this route, you can venture south to the Lower Volga and visit magical places like Astrakhan, Kazan, Samara, Saratov and Volgograd.

The MS Volga Dream Difference

The family-owned and operated MS Volga Dream is a first-class, boutique ship, offering an intimate cruising experience. With just 109 guests and 60 attentive and friendly crew, you will cruise in style and comfort, feeling spoiled every step of the way.

This cruise tour has a unique feature that will enhance your experience on so many levels. You spend three nights in centrally located 5-star hotels in Moscow as well as St. Petersburg. Your 5-star hotels are located a few minutes' walking distance from the main sights - enabling you to make the most of your time in these two amazing cities.

With other cruise companies you stay on board your ship, moored at the river port on the outskirts of the city. This requires lengthy transfers to and from your ship each day and restricts your opportunities for independent sightseeing.

That's the Volga Dream difference!
