About us...

In 2017 we celebrate our 30th anniversary under the same Australian ownership, as the foremost specialist to Russia and its neighbours. With 30 years under our belt, our outstanding team offers you the first-hand knowledge and expertise you would expect from a specialist operator.

We have been organising River Cruising in Russia since its inception and have watched it emerge as one of the most popular ways of exploring Russia.

River Cruising in Russia

There is no easier way to explore Russia than through its ancient waterways on a relaxing river cruise. You pack and unpack once and have no need to worry about early morning starts. River Cruising in Russia is a step back in time, venturing into Russia's heartland. It offers the opportunity to travel beyond Moscow and St. Petersburg to experience life in the riverside towns and rural settlements.

For those who have already travelled this route, you can venture south to the Lower Volga and visit magical places like Astrakhan, Kazan, Samara, Saratov and Volgograd.

The MS Volga Dream Difference

The family-owned and operated MS Volga Dream is a first-class, boutique ship, offering an intimate cruising experience. With just 109 guests and 60 attentive and friendly crew, you will cruise in style and comfort, feeling spoilt every step of the way. In 2018 the Platinum sightseeing program has been excitingly enhanced with exclusive extras such as a backstage visit to the Bolshoi Theatre, Moscow Architecture Tour, Yusupov Palace and private home visit in St. Petersburg and much more.

This cruise tour has a unique feature that will enhance your experience on so many levels. In both Moscow and St. Petersburg you spend three nights in centrally located 5-star hotels a few minutes' walk from the main attractions, enabling you to maximize your time in these two amazing cities.

With most other cruise companies you stay on board your ship, moored at the river port on the outskirts of the city. This requires lengthy transfers to and from your ship each day and restricts your opportunities for independent sightseeing.

That's the Volga Dream difference!
